

LAA Transportation

Those choosing to use LAA transportation will need to commit to a full school day (with travel time) that includes 4.5 hours on campus.

Lowcountry Acceleration Academy (LAA) provides safe and reliable transportation services to GCs in need via van shuttle service. LAA is not required to provide transportation to GCs, and as such, transportation should be viewed as a privilege, not a mandatory school service. Transportation is only provided to and from predesignated hub spots. GCs will not be provided transportation outside of these locations.
